### Recommendation of actions

- Analysis of above table reveals that college has received more than 80% approval rating for 16 of the total 19 questions of the questionnaire. In fact for 11 questions approval rating has crossed 85%. Still following action points are recommended at both administrative and teaching level to gain a score of 100% approval rating on all questions in category A.
  - Teachers should foster an environment of inclusivity in the classroom so that every student feels free to express himself/herself in the classroom. Discipline in the classroom should be given utmost priority.
  - Every teacher should make an effort to acquaint himself/herself with innovative teaching methods so that the curriculum is transacted in the most effective way.
  - Action is required for transforming college into a friendly campus for differently-abled students. In this regard necessary changes need to be made so that differently-abled students can navigate the campus with ease.
- Analysis of above table reveals that college has received approval rating of 60%-80% for two questions of the questionnaire. The issues highlighted by these two questions need immediate redressal from the college administration. Therefore following action points are recommended to address these issues.
  - Although college has made arrangements for clean drinking water in the campus, it is recommended that administration should make sure that clean drinking water is available throughout the campus, 24\*7. In this regard college should install RO water purifiers at strategic spots of the college so that students gain access to clean drinking water without any hassle.
  - The college administration needs to make all round improvements in each area of service delivery so that students get a fulfilling experience during their period of stay in the college.
- Finally college has received an approval rating of less than 60% for the question referred to in category C above. In this regard following action point is recommended.
  - The college administration should strive to keep canteen functional during the whole year.
  - The infrastructure of the canteen should be improved by way of enhancing the sitting area and making a face lift of the canteen building.

### Recommendation of actions

- Analysis of above table reveals that college has received more than 85% approval rating for 15 of the total 19 questions of the questionnaire. In fact for 09 questions approval rating has crossed 100%. Still following action points are recommended at both administrative and teaching level to gain a score of 100% approval rating on all questions in category A.
  - It is recommended that college should facilitate departments in organizing seminars and conferences by way of providing ample financial and administrative support.
  - It is hereby recommended that new Library block should be made operational as soon as possible. Once library is shifted to new block, efforts should be made to increase number of books in the library these should be supplemented by digital resources.
  - Directions should be passed on to in-charge website to update the website regularly and transform its interface into a user-friendly one.
- Analysis of above table reveals that college has received more than 75% approval rating for 2 out of the Total 19 questions of the questionnaire. Following action points are recommended to address the issues brought forth by these responses.
  - College should give foremost priority to enhance the space for Labs and equip them with state of the art equipment. Special consideration should be given to the Labs in terms of allocation of funds which college receives under various heads.
  - College administration should facilitate the participation of faculty in BoS meetings by way of granting leave and permission to participate in such meetings.
- College lacks a well developed playground; therefore efforts need to be made to identify space for Playground so that students are able to take part in various sports activities. Further College needs to

### Recommendation of Actions:

1. Analysis of above table reveals that college has received more than 85% approval rating for 06 questions of the questionnaire. For 02 questions the approval rating is more than 75%. There are 03 questions for which approval rating is less than 75%. Then there are questions which have been analysed separately given their independent nature. In this regard following action points are recommended at both administrative and teaching level to gain a score of 100% approval rating on all questions.
  - A) The syllabus in vogue needs to be updated so that it leads to acquisition of useful skills and inculcation of problem solving ability among the students. However it needs to be borne in mind that these things have already been taken into account to a large extent by the introduction of NEP-2020.
2. The course curriculum needs to be designed in such a way that it leads to acquisition of required skills to enter job market. This again has been taken care of already with the introduction of lot of Skill enhancement courses under NEP-2020.
3. The college should strive to enhance infrastructural and Lab facilities so that students get a fulfilling experience in the college. In this regard it is to be mentioned that new buildings in terms of separate Library block and Indoor stadium are coming up in the college which will take care of any deficiency in infrastructural facilities in the college.
4. The space allocated for canteen needs to be expanded so that students find a place to relax and enjoy. College administration needs to ensure that canteen is open on all days and offers the best food and service to students. It is to be mentioned here that a DPR has been already placed before the administrative department for the expansion of the canteen block.
5. There are other questions in the questionnaire which have been analysed independently and Following actions have been recommended in this regard.
  - A) 39.1% of the respondents have not pursued any form of higher education after leaving the college which is a matter of concern. In this regard sincere efforts need to be made to encourage students to pursue higher education.
6. 56.4% respondents have secured either a government job or private job for themselves or are self employed. Efforts need to be made to increase the employability of our students so the relevant percentage goes up.
